## How to measure your ring size? 2 options:

1. Print the ring sizer below (to be printed in real size, without scaling).

IMPORTANT: in order to be sure that your ring sizer has been properly printed at actual size, check that the scale below measures 5cm.

Choose a ring you already have that fits your finger.

### STEP 1

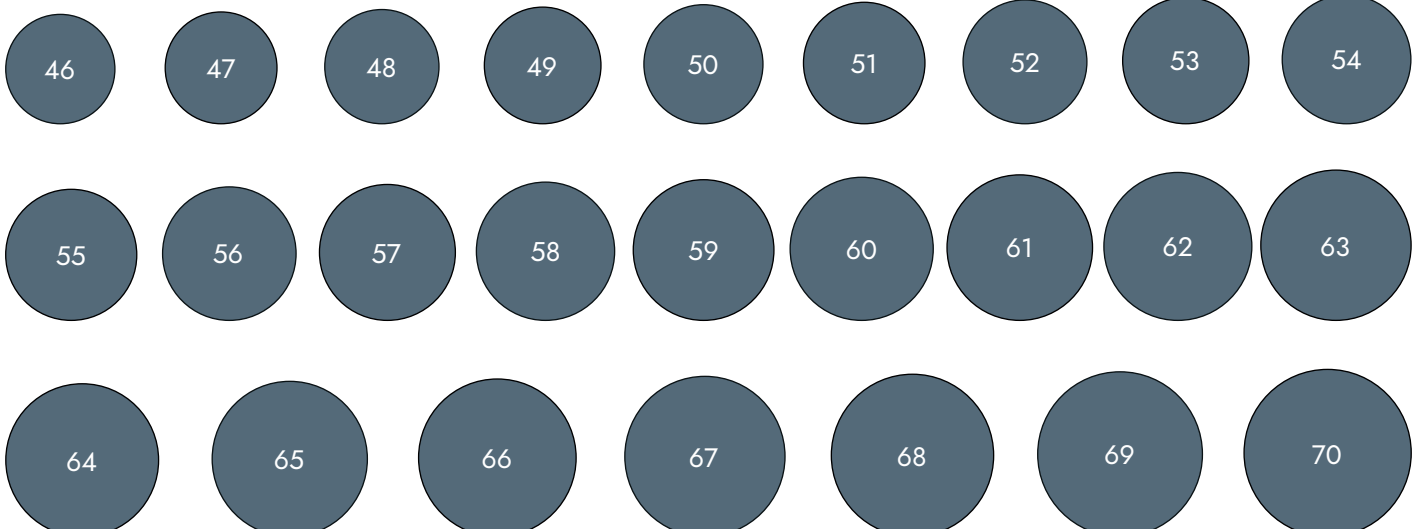

Choose a ring that correctly fits the finger you are purchasing the ring for. The size of your fingers may vary according to one hand or the other. The engagement ring and wedding band are most commonly worn on the "ring finger" of the left hand.

### STEP 2

Lay the ring over each of the size circles below, until you are able to closely match the inside edge of the ring to one of the circles on the guide. (Your ring size matches the circle whose the black line totally appears inside the ring).

### STEP 3

If the ring falls between two of the sizes, order the size in the middle.  
(Example: if the ring falls between 53 & 54, order 53.5).
